Division of Environmental Quality – Water Protection Program - Section 6.225

Page 17-27

The Water Protection Program helps to ensure clean and safe water for all Missourians by providing financial and technical assistance to public drinking water supplies, setting standards for safety and testing, issuing permits and conducting necessary compliance and enforcement actions. To help ensure clean water, the Program classifies waters, establishes safe levels of pollutants, issues permits for wastewater treatment discharges, monitors the water quality of streams and lakes, develops strategies to restore impaired waters, provides technical and financial assistance, permits Concentrated Animal Feeding Operations (CAFOs), and trains and certifies operators at Missouri's water supply and water treatment plants.

Legal Base: Missouri Constitution Article III, Section 37 (c,e,g,h); State Statute 640.100-640.140, 644.006 – 644.096, 644.125- 644.150, 640.700-640.758, 644.101-644.124, 644.500–644.564; Title 42, Title 33, Chapter 26, Subchapters I-IV; Title 42, Chapter 6A, Subchapter XII, Part B, Section 300g; USGS Organic Act of 1879; Public Law (107-117) Recovery from and Response to Terrorist Attacks on the United States Act, 2002

Water Infrastructure PSDs - Section 6.225

Page 19, 28, 33, 48-53

Water Infrastructure addresses inadequate treatment of sewage, water used for drinking water supplies, and storm water runoff that causes public health hazards and pollutes streams and lakes. The department operates several grant and loan programs to Missouri communities for the construction of new, and the improvement of existing drinking water, domestic wastewater, animal wastewater, storm water control, and rural water supply and sewer systems. These loans and grants are administered by the Water Protection Program.

Wastewater Facility Grants: State's share of construction grants for wastewater treatment facilities up to 40% of eligible costs, not to exceed \$2 million dollars. **Wastewater Treatment Facility Loans and Grants:** Wastewater State Revolving Fund providing loan assistance to cities, counties, or public sewer districts. Clean Water State Revolving Fund requires a \$.20 match for each federal dollar. **Rural Sewer and Water Grants & Loans:** Provides grants for up to \$1,400 per connection or up to 50% of the eligible cost of water/sewer system construction not to exceed \$500,000, and Amendment 7 (1998) provided \$100 million for this program and provides for loans. **Storm Water Control Grants & Loans:** Amendment 7 (1998) provided \$200 million for storm water 50% grants/50% loans of total eligible costs to counties of the first class, Kansas City, St. Louis City, and St. Louis County and cities of 25,000 population located in those counties. **Drinking Water Systems Loans:** Drinking Water State Revolving Fund requires a \$.20 match for each federal dollar and provides low-interest loans to Missouri communities for the upgrade of public water systems.

Water Quality Studies PSD - Section 6.225

Page 20, 29, 34

Water Quality Studies: – Grants or contracts are provided to regularly monitor approximately 10% of the state’s classified waters. Data collected through these monitoring efforts is used to assess, protect and restore the quality of Missouri Waters. Additionally, the department funds studies to evaluate a public water supply system for the purpose of developing an engineering report that will make recommendations for updating and upgrading the system’s infrastructure; and to determine the most appropriate course of action for a small public water supply system to take to protect and maintain the quality of the source of its water and to ensure the citizens are consistently provided with clean water that is safe to drink. **Drinking Water Analysis:**– This section provides for the testing of water samples taken from Missouri’s 1,444 community and 1,272 non-community water systems. Samples are tested by the DNR lab or through contractual agreement with an outside lab. Testing for the presence or absence of contamination is necessary to comply with the federal drinking water regulations.

Soil and Water Conservation Program - Section 6.225

Page 59-89

The Soil and Water Conservation program receives its funding through ½ of the one-tenth-of-one-percent Parks, Soils and Water Sales Tax. The program’s primary mission is the control and reduction of soil erosion on agricultural land and protection of water resources. The program maintains a presence in each Missouri county through the 114 Soil & Water Conservation Districts (SWCDs), and operates under the overall direction of the Soil & Water Districts Commission. Staff processes contracts and payments providing financial assistance for the installation of soil and water conservation practices and to support the operation of each of the 114 local SWCDs; provides direct assistance in training, information/education, accounting/auditing, information technology and public administration; and supports the Commission in coordinating activities with stakeholders and partners on the local, state and national level. The Nonpoint Source (NPS) Management Program provides federal Clean Water Act Section 319 implementation grants to accomplish significant results in the control and mitigation of NPS pollution

Division of Environmental Quality – Air Pollution Control - Section 6.225

Page 91-116

The Air Pollution Control Program (APCP), under the overall direction of the Air Conservation Commission, is responsible for the state’s air quality and compliance with the Federal Clean Air Act. The APCP program conducts the following implementation strategies:	
<div>1. Conduct annual emission inventory surveys, perform emission verification, emissions inventory questionnaire (EIQ) audits, training and assistance.</div> <div>2. Issue construction permits and federally enforceable state operating permits, issue preconstruction permits, conduct ambient air quality modeling and monitoring.</div> <div>3. Conduct ambient air monitoring in the non-attainment area (St. Louis metro) and attainment areas, conduct inspections of polluting facilities.</div> <div>4. Develop air rulemakings and state implementation plans in order to maintain the department’s delegation as the permitting and enforcement authority for clean air standards.</div>	
Legal Base:	Federal Clean Air Act (1990), State Statute 643.010-643.220 Prevention, abatement, and control of air pollution, 643.225-643.265 Asbestos Abatement, 643.300-643.355 Air Quality Attainment Act

Page 117-157

The Hazardous Waste Program tracks the disposition of hazardous waste (cradle to grave), identifies and corrects violations of law and regulations, oversees the investigation and remediation of contamination, and encourages waste minimization and assists the public with the identification and proper handling of waste. The program also provides independent sampling and oversight of cleanups at current and formerly used U.S. Department of Defense or Department of Energy sites. The program also operates the Voluntary Cleanup Program and Superfund Cooperative Program to mitigate and allow development of hazardous waste sites.

The program directly funds a number of scrap tire surface material grants, provides grants to individuals and businesses investing in market development for scrap tire end uses, and administers and pays for disposal of scrap tires cleaned up from the environment. The program provides grant funding to Missouri's twenty (20) solid waste management districts to fund their operations and community-based materials reuse, reduction, composting, market development, and recycling projects. Additionally, this appropriation funds the Environmental Improvement and Energy Resources Authority's (EIERA's) Market Development Program, which provides financial and technical assistance grants for development of markets for recovered materials.

Division of Environmental Quality – Environmental Services Program - Section 6.225

Page 203-229

The Environmental Services Program (ESP) provides field support and monitoring functions throughout Missouri. ESP is home to the state’s environmental laboratory. The lab performs chemical analysis of public drinking water supplies throughout the state. The lab also analyzes air, water, and soil samples. ESP is also home to the Environmental Emergency Response Section which maintains a 24 hour/day, 7 day/week support and response capability that encompasses hazardous substance releases, radiological incidents, homeland security events, weapons of mass destruction, and natural disasters.

Hazardous Substances Analysis and Emergency Response – Section 6.225

Page 205, 211, 214, 229

The Department coordinates state, federal and local efforts during an environmental emergency, including the coordination of controlled substances cleanup (i.e.: meth labs) and ensures that the emergency is brought to a safe and environmentally sound conclusion. Many incidents require on-scene response and may require a contractor to be called in to eliminate threat to public health and the environment if a responsible party cannot be located or fails to take timely action. Emergency response encompasses hazardous substance releases, radiological incidents, homeland security events, weapons of mass destruction, and natural disasters.

DEPARTMENT OF NATURAL RESOURCES
Missouri Geological Survey Operations - Section 6.260

Page 263-342

The Missouri Geological Survey (MGS), headquartered in Rolla, MO, includes the Geological Survey Program, Land Reclamation Program and Water Resources Center. The Geological Survey Program provides geologic and hydrologic information and expertise to assist with decisions relating to economic development, site remediation, containment migration, subsurface investigations and geologic hazards, determines the character and availability of the state's energy and mineral resources and implements the Water Well Drillers' Act. The Land Reclamation Program regulates surface mining of coal and industrial minerals, regulates and administers reclamation of coal mine and industrial mine lands on which bonds were forfeited, regulates and administers reclamation of coal mine lands abandoned prior to 1977, and regulates the metallic mineral waste disposal areas of mining operations. Water Resources Center staff provide information for Missouri's comprehensive water needs by examining both surface and groundwater use and availability. They administer the provisions of the Missouri Dam and Reservoir Safety Law; regulating all nonfederal, nonagricultural dams 35 feet and higher through inspections, registration and issuance of construction permits. Staff also investigate water supply issues; maintain and update Missouri's Public Water Supply database for groundwater wells; collect, analyze and distribute groundwater-level data from a statewide network of observation wells; evaluate public water supply wells; and provide casing and total depth specifications. Water Resources Center staff continue to provide guidance and technical expertise for planning and development of regional water supply projects throughout Missouri, as well as defend the state's vital water resources interests, including those related to river transport, before numerous interstate and interagency river basin associations.

Oil & Gas Remedial Fund PSD - Section 6.260

Page 268, 282, 294, 313-318

This section provides for expenditures of forfeited surety bonds for improperly abandoned oil and gas wells. Some of these wells have the potential to impact surface and groundwater resources. If a producer fails to properly close the wells at the conclusion of operations, the state has the ability to claim the bond and use the funds to properly plug the wells. Revenues of the fund are also used to handle emergency situations as they arise, such as a leaking gas well.

Mined Land and Reclaim and Studies - Section 6.260

Page 269, 283-285, 295

The Land Reclamation Program oversees the reclamation of abandoned mine sites in Missouri. This includes sites abandoned prior to 1977 and sites where permits were revoked and reclamation bonds were collected. For coal sites abandoned prior to 1977, the program has access to federal funds to directly contract for the reclamation activities at these sites. Where bonds have been forfeited on permit-revoked mine sites, this appropriation gives the authority for reclamation of these bond forfeited sites to restore mined lands to productive uses such as agriculture, wildlife or development.

Coal Mined Land Reclamation Projects: This section provides funding to complete the reclamation of sites where coal-mining permits have been revoked and the bonds forfeited are insufficient to cover the cost of reclaiming the property. Funding for this section comes from a tonnage assessment on current coal production of \$.45 per ton on the first 50,000 tons and \$.30 per ton for the second 50,000 tons in each calendar year at each coal mine.

Land Reclamation Bond Forfeitures: This section provides funds to allow the Land Reclamation Commission to spend receipts from bond forfeitures on the reclamation of sites where the surface mining permits have been revoked.

Abandoned Mined Lands Reclamation: This section provides federal funding to allow the Land Reclamation Commission to design and reclaim abandoned mine lands left unclaimed before the passage of the Surface Mining Control and Reclamation Act of 1977, Public Law 95-87 in 1977. Funded for this section comes from the federal Abandoned Mine Reclamation Trust Fund, which is supported by a \$.315 per ton fee on surface coal and a \$.135 per ton fee on underground coal.

Small Operator Assistance Program: This section allows for grants to small coal operators (<300,000 tons/year). There is one active coal operator in Missouri that qualifies for this assistance. This appropriation would enable the Land Reclamation Program to assist one small operator should the company decide to expand operations and require an additional permit.

Legal Base: Surface Mining Control and Reclamation Act of 1977, Public Law 95-87 (30 CFR Part 700.01-955.17); State Statutes 444.140, 444.368, 444.778 (Bonds); 444.960 – 444.965 (Fees for Coal Mine Land Reclamation Fund); 444.760 – 444.790 (Land Reclamation Act); 444.800-444.970 Surface Coal Mining Law

Water Resources Center - Section 6.260

Page 266, 278, 279, 290, 291

The Water Resources Center provides information for Missouri’s comprehensive water needs by examining surface water and groundwater use and availability. The program provides technical support in interstate water concerns, monitors drought and floods, inventories wetlands and water resources, and records the major users of water in the state. Water Resources administers provisions of Missouri’s Dam and Reservoir Safety Law, regulating all nonfederal, nonagricultural dams 35 feet or higher. Water Resources also investigate water supply issues, collect and distribute groundwater-level data from a statewide network of observation wells, evaluate all public water supply bedrock wells, and complete regional water assessments that evaluate water problems, needs and opportunities.

Legal Base: State Statutes 236.400-236.500 Dam, Mills & Electric Power; 256.060 Survey of water resources; 256.170 Geologic Hazard Assessment; 256.200 Commission to collect and coordinate water data; 256.400-256.430 Water Usage Law; 256.435-256.445 Multipurpose Water Resource Act; 640.400-640.430 Negotiation of interstate compacts, surface and groundwater monitoring, state water resources plan and special water protection areas; Chapter 257 Water Conservancy Districts

Petroleum Storage Tank Insurance Board Claims - Section 6.280

Page 255-262

This appropriation authorizes investigations, adjudications and payments of claims for clean-up and third party damages. In addition, this appropriation authorizes payment of premium refunds when necessary. Revenues of the fund are derived from three sources. First, the Board of Trustees sets a surcharge on petroleum products capped at no more than sixty dollars per transport load. Beginning September 1, 2008, the Board reduced the transport load fee from \$40/load to \$20/load. Second, the Board sets a one-time fee of one hundred dollars per tank from each participant who wished to obtain insurance from PSTIF for the first time. Third, the Board sets an annual fee from each participant in the program of at least one hundred dollars per year but not more than five hundred dollars per year.

DEPARTMENT OF NATURAL RESOURCES
Missouri State Parks – Operations - Section 6.285

Page 343-395

This section provides general management and planning for Missouri's 88 State Parks and Historic Sites plus the Roger Pryor Pioneer Backcountry. These state parks and historic sites are scattered throughout the state, each containing unique and diverse natural and cultural resources. The park system also includes five district offices and five support programs. In addition, the division provides law enforcement services and protection to park visitors, their property and the cultural and natural resources of the division. The mission of the division is to preserve and interpret the state's most outstanding natural features, to preserve and interpret the state's most outstanding cultural landmarks; and to provide compatible recreational opportunities in these areas.

This core also includes pass through appropriation authority for Missouri State Parks: Bruce R Watkins, Payment in Lieu of Taxes, Gifts to State Parks, State Parks Resale, Concession Default, State Park Grants, and Outdoor Recreation Grants.

State Parks and Historic Sites are supported by the Park Sales Tax, a one-tenth of a cent sales tax which has been adopted by the voters of Missouri four times. One-half of the sales tax proceeds support Missouri's State Parks and Historic Sites. Park Sales Tax funds are limited to expenditures on "the acquisition, development, maintenance and operation of state parks and state historic sites in accordance with Chapter 253, RSMo, and for the administration of the laws pertaining thereto." The most recent 2006 election reauthorized the sales tax until a general election is held in 2016 or at a special election to be called by the governor for that purpose..

Missouri State Parks - Historic Preservation Office - Section 6.290

Page 370-381

The State Historic Preservation Office (SHPO) works with citizens and groups throughout the state to identify, evaluate, and protect Missouri's diverse range of historic architectural and archaeological resources. This office also coordinates nominations to the National Register of Historic Places, handles Section 106 reviews, reviews rehabilitation projects for state and federal income tax credits, and responds to archaeological issues such as unmarked human burials.

Historic Preservation Grants provide authority to pass federal funds through for historic preservation grants and contracts. This appropriation also provides authority to pass Historic Preservation Revolving funds through for financial assistance to aid in the preservation of historically-significant publicly owned properties, such as county courthouses, city halls, or educational facilities, through the Missouri Heritage Properties Program.
